

Kitsap Respiratory Illness Report

Week 50 (12/11/2022 - 12/17/2022)

Summary: Local influenza activity is currently **high**, with 317 positive influenza tests in the past week (1,267 cumulative (23.9% of total tested) since 10/2/2022). RSV activity is currently **high**, with 31 positive RSV tests in the past week (387 since the start of the season). In the past week 9.2% of emergency department (ED) visits were related to influenza-like illness (ILI). In the 2022-2023 flu season, there has been 1 influenza-related death and 3 outbreaks in long-term care facilities.

NOTE: Weeks 40 and 41 are suppressed for two of the figures due to a temporary disruption in data reporting.
